ACKNOWLEDGEMENTS

Many people contribute to *Population Index* by preparing citations for the Bibliography, by translating and abstracting population literature in foreign languages, and by assisting with artwork, computing, typing, proofreading, and numerous other tasks. The *Index* wishes to thank them all for their help.

We owe a particular debt to the staff of the several Princeton University libraries who help us in our preparation of the Bibliography. We would especially like to thank Thomas Holzmann, Olga Boemeke, Evelyn Klingler, and Michiko Nakayama of the library of the Office of Population Research. We also acknowledge the efficient secretarial and clerical help provided by Marcia Davis and Gretchen Piston Ogden, the data entry done by Carol Dyer and Dorothy Mullen, and abstracting and other help from David Earling and Christine N. Perica.

We would also like to thank those outside Princeton who have helped us with queries and problems related to the Bibliography over the past year: in particular, the New York Public Library; Neil Zimmerman of the Population Council Library in New York; the library of the New York Academy of Medicine; the Joint Bank-Fund Library; David Foster of the Encyclopaedia Britannica Statistical Library; Daniel Britz of Northwestern University Library; David Rozkuszka of Stanford University Libraries; Judy Mahachek of the Population Information Program at Johns Hopkins University; the U.S. National Library of Medicine; Grace Barnas of the International Statistical Programs Center at the U.S. Bureau of the Census; Susan Pasquariella of the Center for Population and Family Health at Columbia University; Doreen Goyer of the University of Texas Population Research Center; Alice Harris of the East-West Population Institute in Hawaii; the staff of DOCPAL at the U.N. Centro Latinoamericano de Demografía in Santiago; the INED library in Paris; the library of the International Labour Office in Geneva; and many members of the Association for Population/Family Planning Libraries and Information Centers--International (APLIC), particularly those who are partners in APLIC's Census Network.

Finally, we acknowledge with gratitude the support we continue to receive from the U.S. National Institute of Child Health and Human Development under Contract No. N01-HD-72901 for gathering and editing the bibliographic data appearing in *Population Index*, and from the U.S. Agency for International Development through the Population Information Program of Johns Hopkins University for assistance with preparing the citations in machine-readable form for inclusion in the POPLINE data base at the U.S. National Library of Medicine.

NOTES ON SOURCES

The following list represents an amalgamation of the three separate lists published here each year of the bibliographies, journals, and other serial publications reviewed on a regular basis in the preparation of *Population Index*. We have combined the three lists in order to provide a more useful reference tool to librarians and others wanting an introduction to the universe of serial publications concerned with demography and population studies. All the publications in this list have been selected by the Editors of *Population Index* for inclusion because they regularly contain items of interest to demographers. The list excludes journals and other serial publications that only occasionally include items of demographic interest. Many journals covering medical, biological, and geographical literature are not represented in this list since the principal bibliographies for each discipline are reviewed regularly, namely, *Index Medicus, National Library of Medicine Current Catalog, Biological Abstracts*, and *Current Geographical Publications*. Library of Congress proofsheets serve as another major source of material for bibliographic citations.

Routine official statistical publications that do not contain substantive articles are cited in the checklist of Governmental and International Serial Publications Containing Vital Statistics, issued periodically as a special bibliography--see *Population Index*, Vol. 53, No. 4, Winter 1987.

The sources listed here will be examined annually and additions or deletions made as appropriate. All sources are listed alphabetically by title, followed by the title of the issuing agency and the address to which correspondence should be directed. Cross-references are given for official publications of governmental and intergovernmental agencies and for titles in more than one language.

The Editors welcome exchanges with institutions, information on new or overlooked publications or bibliographies, and other correspondence that will improve and refine this Bibliography.
